Madrid, *Novemb.* 24.

THeir Catholick Majesties are still at the *Buen Retiro*, and it's believed will continue there till after *Christmas*. Orders have been sent to the Viceroy of *Naples*, to permit the Republick of *Venice* to raise 1000 Men in that Kingdom. The Troops that are reformed in the *Milanese*, are ordered to be sent to *Catalonia*.

Genoua, *Novemb.* 24. The Governor of *Milan* departed from hence the 21 instant, with an intention to return hither against the Carnaval. This week arrived here the *Zant* and *Resolution* in 40 days from *Newfoundland*, where they have had a plentiful Fishing.

Legorn, *Novemb.* 21. The 15th instant in the Evening arrived in this Road the Gallies of *Spain*, *Naples*, and *Sicily*; The Governor of this place sent an Officer to compliment the Marquis *de Gogolludo* who commands them, and to let him know, that he would salute him the next Morning with the same number of guns as had been formerly practis'd; but the Wind being fair, the Gallies sailed again in the Night, being bound for *Naples*. By a Vessel arrived from *Tunis*, we are informed, That the two Brothers, *Haley* and *Mehemet Beys*, were encamped with their Forces very near that City, which was defended by the *Dey Achmet*, who having discover'd a Correspondence the *Beys* had in the Town in order to surprize it, had cut off the Heads of several of the most considerable of the Divan and the Militia whom he suspected of favouring that Design. The *Beys* are assisted by the Government of *Argiers*.

Cracow, *Novemb.* 11. The Forces of this Crown are gone into their Winter-quarters, which have been assigned them as near as conveniently they could to the Frontiers. The King, who is now at *Zolkiew*, has, it's said, summoned all the Senators of the Kingdom to meet the beginning of the next Month, to consult about the Preparations for the next Campagne, and has in the mean time declared, That he will command his Army in Person the next Summer; And that he intends to be in the Field towards the end of *April*, or the beginning of *May*. The Troops are at present in no very good condition, having suffered very much by the continual Skirmishes and Engagements they had with the *Turks* and *Tartars* for 10 or 12 days together, and through the scarcity of Provisions, which, being advanced so far as they were into the Enemies Countrey, they could not without great difficulty be supplied with. The Colonels have Orders to make all the haste they can to recruit their several Regiments, and, it's said, Commissions will be given out for a farther Levy both of Horse and Foot. The Ambassadors designed for *Moscovy*, have Orders to hasten their departure, upon the advice the King has received of the disposition the Czars are in, not only to determine amicably the Differences that have so long depended about the Limits, but farther to make a perpetual Peace and defensive Alliance with this Crown. There are Letters from *Lemburgh*, which say the *Turks* have besieged *Niemirow*, where General *Mobila* is with a good Garison of *Cossacks*; if this News be confirmed, it will oblige our Forces to take the Field again to relieve this place, which is of no small importance.

Vienna, *Novemb.* 29. The Sieur *Meninski*, the Emperor's chief Interpreter, is come back from *Comorra*. He had Orders to open the Letter the Aga *Achmet* was charged with, which he did, and having interpreted it, sent it hither, with an account, That the Aga had declared to him, that the Grand Signior did desire to re-establish a Peace or Truce between the two Empires, and wished his Imperial Majesty would send Commissioners to *Buda*, or *Constantinople*, to begin a Negotiation for that purpose; adding, That the Visier of *Buda* had in the mean time Orders not to exercise any Hostilities against the Imperial Troops; and that Count *Teckeley* had been seized by the Grand Signior's Command, as being the Author of this War, and all the Calamities that have attended it. The Visier of *Buda*'s Letter was much to the same effect; Upon which directions were sent to the Sieur *Meninski* to return, as we are told, this Answer to the Aga: That the Emperor did not intend to send Commissioners, or any other Ministers to the *Port*, nor to enter into any Negotiation of Peace or Truce, without the participation of his Allies. The Envoy from the Prince of *Transilvania* continues to sollicite an Exemption of Quarters on the behalf of several Villages on the Frontiers of *Hungary* which belong to that Principality, and offers in lieu thereof to furnish a certain quantity of Forage and Provisions for the Imperial Troops. The Chevalier *de Lubomirski* has quitted his Regiment, and in consideration thereof, the Emperor has given him a yearly Pension of 3000 Crowns; It's said that the said Regiment, with those of *Thaun*, *Holstein*, *Richardi* and *Keri*, will be reformed, and incorporated into other Regiments which are not complete. His Imperial Majesty has declared the Prince of *Savoy* and Colonel *Nigrelli* Major-Generals of Foot. Count *Leslie* being very infirm, has desired Leave to retire; and it's believed the Count *de Staremberg* will command the Imperial Forces in *Croatia* the next Campagne. The Treaty with the Elector of *Saxony* about the Troops he has offered to assist the Emperor with against the *Turks*, is not yet perfected. There is a like Negotiation on foot with the Elector of *Brandenburgh*, and the Landt Grave of *Hesse-Cassel*. The Princess *Ragotzi* is unwilling to put the Castle of *Mongatz* into the hands of the *Imperialists*, having all her Riches there; and several of the chief of the Rebels who are retired thither with their Money,
